THE NURSERY

URBAN GREEN – ALL OVER EUROPE

Dear Sir or Madam,  
Dear valued business partners,

Design requirements have become more stringent and demanding in the world of green. These ever-increasing and ever-increasingly refined and specific demands have given our team in sales, production and administration the daily motivation to respond ever more fully to your enquiries in a quick and reliable way.

Our proposal is mainly directed to public authorities, landscape architects, landscape contractors and private investors throughout Europe. Personal contact with our clients during the planning process has resulted in an optimal processing of projects. The new issue of our catalogue contains not only our well-known and classic assortment of products, but also a brand new range of varieties as well. You can realize your "green" ideas and projects with the aid of our exclusive assortment. Please feel free to call us or – even better – to visit our nursery. Be inspired by the huge diversity of colours and shapes of our stock. Accompanied by members of our experienced staff, you will easily find the perfect fit, the perfect plant to match your 'green' ideas perfectly.

# PROJECTS ALL OVER EUROPE

Plants from our native fields can be found at a large number of projects in many major European cities, towns and villages, creating a 'green canopy' in the cities and villages of Europe. Our plants decorate public places and town squares - catching eyes in botanical gardens, creating avenues of extraordinary beauty, serenading your eyes in private, castle and palace gardens and, last but not least, in public parks.

# THE CATALOGUE

Our latest catalogue is available in five languages:

English, German, French, Dutch and Russian.

The catalogue is clearly divided into different sections over nearly 1000 pages and offers an extensive, and timeless yet modern range. Detailed plant descriptions as well as a systematic size listing and more than 3500 representative photos provide comprehensive information.

No matter which language you decide upon, you are choosing an efficient and reliable partner in the tree nursery sector.

FLORA

Two handy ring-binders include all versions of all supplements printed for our dendrological photo-atlas so far. An alphabetical index enables you giving a quick detailed and professional presentation of individual selected plants. The pictures available in the format 30 x 21 cm support your planning activities systematically. These large-sized pictures have proven to be very useful in advising customers. The reverse side shows a detailed description of the plants in German, English, French and Dutch. Versions in Czech and Russian are at your disposal and are available on demand.

## FLORA-DVD

On demand our dendrological photo-atlas FLORA is also available as a DVD-version. With only one click you can choose among 415 pictures. The selected plant will appear fully described

in the language you chose. Easy and quick to use! You would like to complete your work with significant pictures? You can easily copy, paste or print the Flora-pictures.

## HOMEPAGE

For further information you can also visit our homepage. There you can find assorted samples and images of several reference projects as well as your contact persons. Up-to-date video clips, pdf-downloads with nearly all our publications and loads of other useful information about stem protection and plant and watering instructions complete our service.

You can also order our catalogue and Flora products online!
