Archaeology Anthropology and Interstellar Communication Douglas A. Douglas A. Vakoch,2015-03-24 Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Biohazard Ken Alibek,Stephen Handelman,2014-03-05 "Read and be amazed. . . . An important and fascinating look into a terrifying world of which we were blissfully unaware."—Robin Cook, author of Contagion Anthrax. Smallpox. Incurable and horrifying Ebola-related fevers. For two decades, while a fearful world prepared for nuclear winter, an elite team of Russian bioweaponers began to till a new killing field: a bleak tract sown with powerful seeds of mass destruction—by doctors who had committed themselves to creating a biological Armageddon. Biohazard is the never-before-told story of Russia's darkest, deadliest, and most closely guarded Cold War secret. No one knows more about Russia's astounding experiments with biowarfare than Ken Alibek. Now the mastermind behind Russia's germ warfare effort reveals two decades of shocking breakthroughs . . . how Moscow's leading scientists actually reengineered hazardous microbes to make them even more virulent . . . the secrets behind the discovery of an invisible, untraceable new class of biological agents just right for use in political assassinations . . . the startling story behind Russia's attempt to turn a sample of the AIDS virus into the ultimate bioweapon. And in a chilling work of real-world intrigue, Biohazard offers us all a rare glimpse into a shadowy scientific underworld where doctors manufacture mass destruction, where witnesses to errors are silenced forever, and where ground zero is closer than we ever dared believe. Praise for Biohazard "Harrowing . . . richly descriptive . . . [an] absorbing account."—The New York Times Book Review "Remarkable . . . terrifying revelations . . . [Ken Alibek's] overall message is ignored at great national peril."—Newsday

The Death of Expertise Tom Nichols,2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such

counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission--

The Allies of Humanity Book Three Marshall Vian Summers,2013-09-28 The Allies of Humanity Book Three presents the third set of Briefings from an off-planet source whose stated purpose is to prepare the human family for the realities of life in our local universe and to alert us to an alien Intervention now taking place on Earth. The Allies of Humanity claim to represent a group of "free worlds" in our local region of space who do not pursue intervention or domination of other worlds, but instead seek to support freedom and sovereignty in emerging worlds such as our own. Here the Allies distinguish themselves from the Intervention into our world by exploitative commercial forces they call "the Collectives" whose activities represent a dark agenda kept secret for over half a century. The Allies of Humanity Briefings reveal the four major activities of this alien agenda and give us a clear picture of who is visiting our world, why they are here and what they ultimately want. The Briefings also give us a window into the reality of life beyond our world, a view that we would never have otherwise, revealing the nature of trade, travel and interaction between worlds and the challenges humanity will face in our local environment of space. With this the Allies make clear that we are in the unfortunate position of being a native world discovered by powerful forces from beyond. History has taught us the danger and the tragedy that native peoples faced when they encountered outside forces for the first time. Now we are all the natives of a new world facing the threat of Intervention. The Allies Briefings give us the key information we need to understand the Intervention, to protect ourselves from its activities and ultimately safeguard our world from its agenda. With this, we are also given a new vision of humanity's future in space and a pathway to cultivating a greater unity and freedom in our world as we emerge into a larger universe of intelligent life.

Case Closed Gerald Posner, 2013-10-01 Pulitzer Prize Finalist: “By far the most lucid and compelling account . . . of what probably did happen in Dallas—and what almost certainly did not.” —The New York Times Book Review The Kennedy assassination has reverberated for five decades, with tales of secret plots, multiple killers, and government cabals often overshadowing the event itself. As Gerald Posner writes, “Fifty years after the assassination, the biggest casualty has been the truth.” In this first-ever digital edition of his classic work, updated with a special comment for the fiftieth anniversary, Posner lays to rest all of the convoluted conspiracy theories—concerning the mafia, a second shooter, and the CIA—that have obscured over the decades what really happened in Dealey Plaza on November 22, 1963. Drawing from official sources and dozens of interviews, and filled with powerful historical detail, Case Closed is a vivid and straightforward account that stands as one of the most authoritative books on the assassination of John F. Kennedy.

Lenin's Tomb David Remnick, 2014-04-02 Winner of the Pulitzer Prize One of the Best Books of the Year: The New York Times From the editor of The New Yorker: a riveting account of the collapse of the Soviet Union, which has become the standard book on the subject. Lenin's Tomb combines the global vision of the best historical scholarship with the immediacy of eyewitness journalism. Remnick takes us through the tumultuous 75-year period of Communist rule leading up to the collapse and gives us the voices of those who lived through it, from democratic activists to Party members, from anti-Semites to Holocaust survivors, from Gorbachev to Yeltsin to Sakharov. An extraordinary history of an empire undone, Lenin's Tomb stands as essential reading for our times.

Judas Unchained Peter F. Hamilton, 2006-02-28 WALL STREET JOURNAL BESTSELLER • “An interstellar suspense thriller . . . sweeping in scope and emotional range.”—San Antonio Express-News In the star-spanning civilization known as the Intersolar Commonwealth, twenty-three planets have fallen victim to the Prime, a technologically advanced alien species genetically hardwired to exterminate all other forms of life. But the Prime is not the only threat. The Starflyer, an alien with mind-control abilities impossible to detect or resist, has secretly infiltrated the Commonwealth and is sabotaging the war effort. Is the Starflyer an ally of the Prime, or has it orchestrated a fight to the death between the two species for its own advantage? Caught between two deadly enemies, the fractious Commonwealth must unite as never before. This will be humanity's finest hour—or its last gasp. Praise for Judas Unchained, the sequel to Pandora's Star “Bristles with the energy of golden age SF, but the style and characterizations are polished and modern.”—SF Site “You're in for quite a ride.”—The

Pandora's Star Peter F. Hamilton,2009-08-21 Pandora's Star is the first part of Peter F. Hamilton's epic Commonwealth Saga duology - a fantastic galaxy-spanning novel from the master of space opera. For fans of Iain M. Banks and Alastair Reynolds. At the edge of the galaxy something awakens - and it's coming for us . . . Earth AD 2329: Humanity has colonized over four hundred planets, all interlinked by wormholes. For the first time in mankind's history there is peace. Then a star over a thousand light years away suddenly vanishes, imprisoned inside a force field of immense size. Yet who - or what - has that sort of technology? And what could this mean for us? Only a faster-than-light starship, captained by ex-NASA astronaut Wilson Kime, can reach that distance to investigate. For Wilson, getting inside the force field could be easy. It may be harder to stop something else from getting out. What if there was a very good reason to seal off an entire star system? The Commonwealth Saga duology concludes with Judas Unchained. 'The best book Hamilton has written in years' - Guardian 'Anyone who begins this won't be able to put it down' - Publishers Weekly

Walking Among Us David M. Jacobs, PhD,2015-09-01 In his 1998 book, *The Threat*, Jacobs uncovered disconcerting reports about aliens' plans for the future of Earth. He reported that a "change" is coming; a future when very human-like hybrids would intermingle with humans in everyday life. "Soon we will all be together," the aliens said. "Soon everyone will be happy and everyone will know his place." This book examines a chilling phenomenon that Jacobs began noticing in 2003. The alien integration action plan has kicked into high gear. The incidents of alien abductions have declined as occurrences of alien involvement in everyday life have accelerated. A silent and insidious invasion has begun. Alien hybrids have moved into your neighborhood and into your workplace. They have been trained by human abductees to "pass," to blend in to society, to

appear as normal as your next door neighbor. This book illustrates in detail the process of alien integration into society and the strategy and support structure that has been developed to make this happen seamlessly. While he is not certain why they are doing it, the final chapter of the book will provide some chilling possible answers as to why they are here and what they want to accomplish. Jacobs is a careful researcher who has investigated more than 1150 abduction events experienced by more than 150 abductees. This book focuses on the experiences of thirteen abductees.

The Strongman Angus Roxburgh, 2011-12-15 Russia under Vladimir Putin has proved a prickly partner for the West, a far cry from the democratic ally many hoped for when the Soviet Union collapsed. Abroad, he has used Russia's energy might as a foreign policy weapon, while at home he has cracked down on opponents, adamant that only he has the right vision for his country's future. Former BBC Moscow correspondent Angus Roxburgh charts the dramatic fight for Russia's future under Vladimir Putin - how the former KGB man changed from reformer to autocrat, how he sought the West's respect but earned its fear, how he cracked down on his rivals at home and burnished a flamboyant personality cult, one day saving snow leopards or horse-back riding bare-chested, the next tongue-lashing Western audiences. Drawing on dozens of exclusive interviews in Russia, where he worked for a time as a Kremlin insider advising Putin on press relations, as well as in the US and Europe, Roxburgh also argues that the West threw away chances to bring Russia in from the cold, by failing to understand its fears and aspirations following the collapse of communism.

Bourdieu's Secret Admirer in the Caucasus Georgi M. Derluguian, 2005-07-15 Bourdieu's Secret Admirer in the Caucasus is a gripping account of the developmental dynamics involved in the collapse of Soviet socialism. Fusing a narrative of human agency to his critical discussion of structural forces, Georgi M. Derluguian reconstructs from firsthand accounts the life story of Musa Shanib—who from a small town in the Caucasus grew to be a prominent leader in the Chechen revolution. In his examination of Shanib and his keen interest in the sociology of Pierre Bourdieu, Derluguian discerns how and why this dissident intellectual became a nationalist warlord. Exploring globalization, democratization, ethnic identity, and international terrorism, Derluguian contextualizes Shanib's personal trajectory from de-Stalinization through the nationalist rebellions of the 1990s, to the recent rise in Islamic militancy. He masterfully reveals not only how external economic and political forces affect the former Soviet republics but how those forces are in turn shaped by the individuals, institutions, ethnicities, and social networks that make up those societies. Drawing on the work of Charles Tilly, Immanuel Wallerstein, and, of course, Bourdieu, Derluguian's explanation of the recent ethnic wars and terrorist acts in Russia succeeds in illuminating the role of human agency in shaping history.
