Welcome to Elhannon!

Dear friends,

I thought I'd seen it all in over 45 years of business! While this year has proved to be quite challenging for everyone, thanks to you, we've been able to keep moving forward. And just like you, we're also looking forward to a return to 'normal'. In the meantime, we will continue to provide top quality plant material and great service that prioritize quality and safety.

Among the many changes this unprecedented year has brought, it's safe to say that we are all spending quite a bit more time at home. I've been trying to make the best of the situation by working on long overdue home-improvements and expanding my home garden. This year's pictorial, found in the middle of this catalog, are some of my favorite views of our home.

Especially this year, we want to help you add to your home by providing beautiful ornamentals that you can enjoy year-round, evergreens that will add privacy or shield your property from the wind, shade trees to help keep your house and yard cool in the summer, and fruit and nut trees that will provide your family with fresh, home-grown produce for years to come, and much more.

Additionally, I would like to highlight our wide selection of native species for many reasons, among them: their adaptability to our local climate, tolerance for harsh conditions, and benefit to local wildlife. Whatever your need, we provide trees of all types and sizes: from 2" caliper matching crabapples to the 45' tall multi-stem birch, we have over 350 species of trees and shrubs to offer.

As a family-owned company, we recognize the need to keep you and your family safe. We are happy to accommodate your plant purchases, from tagging visits at a safe distance to digital-only photo tagging, we can help you select the exact trees you want. We are also happy to select plants for you, with our assurance that you'll be receiving our high quality specimens.

Of note, we've been using this time to make some business improvements, such as our new website - elhannon.com - there you can stay up-to-date with our products and sign up for our new monthly newsletter.

We are aslo introducing our new email address - wholesale@elhannon.com - please update your address books and send us your request for quotes there in the future.

We've also changed our catalog to encompass spring and fall of the same calendar year. Be sure to look for the new year's catalog every January from now on.

I hope you have a safe and Happy New Year!

Jim Sutton, President

About Our Nursery

We are a cold-hardy nursery in USDA Plant Zone 4 at the tristate corner of Vermont, Massachusetts, and New York. Our evergreen, shade, ornamental, and fruit trees and shrubs grow on over 1,000 acres of the Hoosic and Wallomsac Rivers' fertile Teel and Hamlin soils. We take great pride in producing the finest trees available through our comprehensive maintenance program that includes carefully staking, pruning, irrigating, and fertilizing. We recognize that growing the perfect tree doesn't happen overnight, therefore we meticulously cultivate our plants for years until they are ready for you.

Whether you are looking for an elegant ornamental or towering shade tree, we have selections with stately features, fragrant spring blossoms, and brilliant fall colors. Our collection includes a range of products from hardy, reliable native trees to unique hybrids and cultivars seldom found elsewhere in such an assortment of sizes. You can rely on Elhannon trees, we are confident you will be as impressed with our products as we are!

Our cold-hardy nursery is perfect for conifers as they are subjected to tough northern winters: cold temperatures, heavy snow, and brisk wind. This environment creates a readily-adaptable plant for any climate while preserving their classic shape. From native hemlocks to towering Fraser fir and graceful weeping spruce our conifers make a superb choice for privacy screens, windbreaks, or aesthetic accent in any landscape!

Our shrubs are field-grown – dug, balled, and burlapped (B&B) when you order – avoiding containers that may detract from the plant's overall health and longevity. We maintain our shrubs with the same care as all our other beloved plant material, ensuring all our products meet the same high standard.

These plants will make a wonderful addition to your screening or ornamental needs and highlight your landscape by attracting birds, butterflies, and bees with flowers and fruit. Make sure your landscape is complete by choosing shrubs from Elhannon!

Terms and Conditions

Pricing and Availability: The price and availability of material may change without notice. Prices in this catalog are not final. After placing an order Elhannon Wholesale Nursery Inc (EWN) will send a confirmation with the final price.

Tagging: Please schedule an appointment with us if you wish to visit our nursery to tag material. Customers declining to tag material, or for select customers approving material via EWN photograph, accept the selection by EWN staff and cannot reject plant material at delivery based on shape or form.

Placing Orders: Orders may be placed any time of the year via email, phone, or in-person at our office. Orders are filled according to digging season, weather conditions, or other natural events. See details under Summer Digging Surcharge for more information regarding digging plant material out of season.

Cancellations: All cancellations must be made in writing and received prior to the scheduled digging date. Cancellations will not be accepted after the material has been dug. Customers will be responsible for full payment once material is dug.

Digging Surcharges:

Summer- A surcharge of 25% will be added to the cost of material that is dug during the summer. Summer digging is done at the client's risk. Some species cannot be summer dug. We reserve the right to refuse to dig if we feel weather conditions would be detrimental to the health of the plant.

Hand Digging- is done by request only and incurs a 20% additional fee.

Deposit: A 50% deposit is due prior to digging an order. Credit may be extended to parties with an established client history. If EWN begins work on a confirmed order, your deposit may be forfeited.

Payment Terms: The balance of an order is due at time of shipment. Overdue accounts will be charged interest at a rate of 2% per month, 24% per annum. Returned checks will result in a \$50 service charge. No third party or post-dated checks will be accepted. All disputes shall be resolved in the New York State Supreme Court, county of Rensselaer.

Sales Tax: Applicable state sales tax will be charged unless the client has provided the required tax exemption certificate at the time of the transactions.

Product Delivery: Delivery service is available for a fee that is dependent on the current market rate of diesel fuel at the time of order. Please schedule all pick-ups or deliveries with our office after your order has been confirmed.

Product Storage: We offer the ability to store above-ground material prior to shipment date at a cost of 20% of the plant's value, per month. We reserve the right to discontinue holding material for orders with a paid deposit after 1 year if the material remains unclaimed. Deposits will not be refunded if the order has not been cancelled or if the material remains unclaimed.

Warranty: EWN exercises great care in labeling all material true to size and name. There is no warranty expressed or implied as to the merchantability or fitness for any particular use of our nursery stock.

Claims: All claims must be made within 10 days of pick-up or delivery. Failure to properly handle or maintain live plant material is not cause for a claim.

Request a Quote

- 1. Send an email to wholesale@elhannon.com with the following:
 - Plant information: common or botanical name, size, quantity, and any notes for each species
 - Project name or purchase order number
 - Select pick-up or delivery with estimated date- if delivery, include destination address
 - Sales tax exemption information

Please send request for quotes in Microsoft Excel if they contain more than 5 individual items

- 2. We will reply to your email with an attachment in Adobe PDF format. Please note:
 - The quote may contain substitutes of species, size, and quantity based on our availability
 - We aim to reply within 1 business day, but may take longer based on size of list and staff availability during peak seasons
 - We reserve the right to not dig certain species for survivability based on seasonal or other environmental concerns, including but not limited to fall digging hazards or drought
- 3. Select which material you would like to purchase, and we will respond with a confirmation
 - A dig deposit may be required before the order is dug
 - Keep us posted with any changes to anticipated delivery date
 - Plant material left undelivered may be subject to storage fees or forfeiture

Schedule a Tagging Visit

We are happy to show you our nursery and help you select your material in a safe manner. Please contact us by phone or email to schedule a visit.

Photo Tagging

We take great care in providing the best quality plant material available. We suggest visiting us in person to select your material, but that may not be possible. We are able to send you pictures representing the tree requested, however tagging and taking pictures of each tree with measurments is time consuming and may be subject to minimum order limit.
