We are pleased to offer our new price list and although we have to increase some of our prices, these increases have been kept to an absolute minimum. We are now able to offer an even larger number of varieties. Prices are inclusive of V.A.T. unless otherwise stated.

You are welcome to visit the Nursery and inspect our comprehensive range of trees, shrubs and conifers. Large numbers are container grown and may be collected without prior notice, but with open ground trees, which have to be lifted, please give us at least two day's notice before collection. Open ground plants are only available between November and March.

In conjunction with our Forestry Contracting business we are able to offer a full range of Forest Trees, and will be pleased to quote for fencing and planting of woods, hedges and shelter belts, etc. We can also supply and erect most types of fencing.

FENCING

We are able to supply and erect most types of fencing for domestic purposes, farms and other commercial purposes. We also supply fencing materials.

TREE PLANTING

In conjunction with our Forestry contracting business, we are able to offer a full range of forest and woodland trees. Please phone us for a quotation, as the larger quantities involved enable us to quote more competitive prices than printed in this list. We would be pleased to quote for all other woodland and amenity work.

LANDSCAPING

We would be pleased to provide quotations for landscaping, both on small and larger scales, and are able to offer a full design service, if required.

TURF

We are suppliers of 'Sovereign' high quality, cultivated turf. Prices on Page 32 Please phone for a quotation if you require us to prepare the site and supply and lay the turf.
