**Contains soy, milk, oat, wheat.**

FOS: fructo-oligosaccharides.

Ingredients: Water, maltodextrin, sodium and calcium caseinates, high oleic sunflower oil, canola oil, soy protein isolate, fructo-oligosaccharides, MINERALS (potassium citrate, calcium phosphate tribasic, sodium citrate, magnesium chloride, magnesium phosphate dibasic, potassium chloride, ferrous sulphate, zinc sulphate, manganese sulphate, cupric sulphate, sodium molybdate, chromium chloride, sodium selenate, potassium iodide), medium chain triglycerides (MCT) oil, oat fibre, soy polysaccharide, gum arabic, emulsifier (322), VITAMINS (choline chloride, ascorbic acid, dl-alpha tocopheryl acetate, niacinamide, calcium pantothenate, pyridoxine hydrochloride, thiamin hydrochloride, riboflavin, Vitamin A palmitate, beta carotene, folic acid, biotin, phyloquinone, Vitamin D<sub>3</sub>, cyanocobalamin), carboxymethyl cellulose, taurine, l-carnitine. May contain: sodium chloride, magnesium sulphate, potassium phosphate dibasic.

# OSMOLITE RTH

Osmolite 1.0 kcal/mL is a nutritionally complete and balanced isotonic, low residue tube feed for the dietary management of patients with, or at risk of developing, disease-related malnutrition.<sup>9</sup>

**Contains milk.**

MCTs: medium chain triglycerides.

Ingredients: Water, maltodextrin, hydrolysed whey protein concentrate, VEGETABLE OILS (medium chain triglycerides (MCT) oil, canola oil), sucrose, hydrolysed sodium caseinate, MINERALS (calcium carbonate, magnesium phosphate dibasic, potassium phosphate dibasic, potassium chloride, sodium citrate, potassium citrate, ferrous sulphate, zinc sulphate, manganese sulphate, cupric sulphate, sodium molybdate, chromium chloride, sodium selenate, potassium iodide), flavouring, emulsifier (472e), VITAMINS (choline chloride, ascorbic acid, dl-alpha tocopheryl acetate, niacinamide, calcium pantothenate, Vitamin A palmitate, pyridoxine hydrochloride, thiamin hydrochloride, riboflavin, folic acid, phylloquinone, biotin, Vitamin D<sub>3</sub>, cyanocobalamin), stabilisers (460, 407, 466), l-carnitine, taurine, sweetener (955). May contain: magnesium chloride, calcium phosphate tribasic.

# 4. PAEDIATRIC

# PEDIASURE RTD

**PediaSure RTD 1.0 kcal/mL** provides complete and balanced fibre-free nutrition for the dietary management of children aged 1–10 who are at nutritional risk or are in need of nutritional support.<sup>17</sup>

## AVAILABLE IN VANILLA, CHOCOLATE AND STRAWBERRY

### SOLUTE CONCENTRATION

<b>Osmolality</b>	mOsm/kg H <sub>2</sub> O	320

Gluten Free refers to the product containing no detectable gluten at a limit of quantification of 5ppm.

\*By FSANZ definition low lactose (not more than 2g per 100g).<sup>2</sup>

^and other nutrients.

**Contains soy, milk.**

Nutritional Information is for Vanilla flavour.

Ingredients for other flavours may differ slightly.

Ingredients (Vanilla flavour): water, maltodextrin, sucrose, high oleic sunflower oil, milk protein isolate, soy oil, MCT oil, sodium caseinate, MINERALS (sodium citrate, magnesium chloride, potassium chloride, potassium phosphate dibasic, potassium citrate, calcium phosphate tribasic, ferrous sulphate, zinc sulphate, cupric sulphate, manganese sulphate, sodium fluoride, potassium iodide, sodium molybdate, chromium chloride, sodium selenite), flavouring, whey protein concentrate, emulsifiers (471, 322), VITAMINS (choline bitartrate, ascorbic acid, dl-alpha tocopheryl acetate, niacinamide, calcium pantothenate, riboflavin, thiamin hydrochloride, Vitamin A palmitate, pyridoxine hydrochloride, folic acid, biotin, phylloquinone, Vitamin D<sub>3</sub>, cyanocobalamin), stabiliser (415), m-inositol, taurine, l-carnitine. May contain: magnesium sulphate, sodium chloride.

# 7. PHARMAC INFORMATION

Breast milk is best for babies. Professional advice should be followed before using an infant formula. Introducing partial bottle-feeding could negatively affect breast feeding. Good maternal nutrition is important for breast-feeding and reversing a decision not to breast-feed may be difficult. Infant formula should be used as directed. Proper use of infant formula is important to the health of the infant. Social and financial implications should be considered when selecting a method of feeding.

**EleCare PHARMAC INFORMATION:** For initial and continuing treatment of gastrointestinal and other malabsorptive problems. Special Authority Required. EleCare Unflavoured 2372568; EleCare LCP 2372541; EleCare Vanilla 2372533; Restricted Benefit. See Pharmac link for full details [www.pharmac.govt.nz/Schedule](http://www.pharmac.govt.nz/Schedule)
