Euonymus f. 'Lemon Lime' Medium growing evergreen with citrus-like foliage of yellow and green.	Groundcover	2m	1.5m	4	39.99 2 Gallon	
Euonymus f. 'Moonshadow' Lustrous, deep green leaves with bright yellow centers provide bold evergreen colour.	Low spreading	90cm	1.5m	4	39.99 2 Gallon	
Gaultheria p. 'Winter Fiesta' Deep green, evergreen foliage forms a dense, spreading mat. White flowers in late summer turn into huge white berries in fall that turn cotton candy pink as the weather cools, creating a winter landscape spectacle that is showy and unique. A superb looking specimen that shines in the late summer through winter.	Groundcover	15cm	90cm	4	24.00 1 Gallon	New
Gaultheria procumbens A native ground cover with aromatic foliage and small red fruit. Outstanding fall colour. Needs acid soil.	Low Spreading	10cm		4	19.99 1/2 Gallon	
Mahonia repens Mahonia repens is a low, stoloniferous, colony forming evergreen, rarely more than 25cm high, used as a groundcover. The leaves are pinnately compound, blue-green in summer, rich purple-red in the winter. In mid spring, yellow flowers are borne on small racemes, later in the summer turning into small, black-purple, grape-like berries.	Groundcover	25cm		5	49.99 2 Gallon	
Rhododendron 'Black Hat' This very early blooming rhododendron is a confection of ruffled lavender flowers in the first few weeks of spring, each a rounded cluster atop a spray of leathery evergreen foliage. It's the foliage that gives this plant its name, in fact - its a very dark purple-green, reaching near black tones, especially in cooler weather. This gives in undeniably drama and chic and really sets it apart from other early blooming rhodies. Thick, durable blooms ensure longer lasting blooms over a longer period, too. displayed on the ascending branches of Abies koreana Aurea in spring. The yellow gradually softens as the season progresses, but complementary purple-blue cones add to the dramatic effect. Full sun produces the best colour, but this golden fir will benefit from some protection if grown in scorching conditions. Over time. A.k. Aurea becomes a large, pyramidal tree.						
Abies koreana 'Golden Glow' Golden Glow Korean Fir has attractive yellow-variegated bluish-green foliage. The small needles are highly ornamental and turn an outstanding gold in the fall.	Spreading	1.8m	3.6m	4	189.00 3 Gallon	New
Abies koreana 'Silver Show' The two-toned needles of Abies koreana Silver Show are so tightly curled that the shoots are almost cylindrical, exposing the extremely white undersides completely. The result is a silver-white element in the garden. The contrasting dark purple cones stand out against the foliage. Showy color and special texture abound. Enjoys full sun and moist, well-drained soil.	Narrow Upright	3.6m	2.4m	4	172.00 3 Gallon 269.00 6 Gallon	
Abies koreana 'Starker's Dwarf' Starkers Dwarf Korean Fir. The dwarf, Abies koreana Starkers Dwarf develops as a nest form when young and matures to a mounded pyramidal shape with age. Its wide, blunt-tipped needles, decorated with white undersides, present a striking texture. Protect Abies koreana Starkers Dwarf from hot, direct afternoon sun. Chamaecyparis p. 'Gold Spangles' Slow growing, but worth the wait, 'Gold Spangle' Sawara cypress has bright yellow foliage that is a mix of fans and threads. Holds great appeal for homeowners and landscapers. Gold foliage persists all year round.	Broad Upright	3.6m	2.4m	4	149.00 6 Gallon	New
Chamaecyparis pisifera 'Golden Mops' The finely textured, sunny foliage of this winning "threadbranch" cypress develops vibrant new spring growth that retains its brilliance and shines in the garden all year. Well-behaved, compact and hardy, the low, mounding conifer makes a versatile addition to border, bank or foundation. It produces best colour in full sun and performs even in areas challenged by heat and humidity.	Globe Shape	1m	1m	4	35.00 1 Gallon 75.00 3 Gallon 98.00 6 Gallon	
Juniperus c. 'Shimpaku' This versatile, vase-shaped Juniperus chinensis Shimpaku develops upright, fountain-like branches that are covered in robust, green, awl-shaped foliage. Appreciated by bonsai enthusiasts for an irregular form and exposed, peeling bark, it also makes an interesting addition to container arrangements and garden beds.	Spreading	90cm	1.8m	4	79.00 3 Gallon	
Juniperus c. 'Trautman' Juniperus chinensis Trautman is a hardy alternative to the temperate Italian Cypress. This narrow, coarse textured, bluish gray-green spire has incredible potential throughout the gardening world. As a single specimen it will make a majestic statement as it towers above other garden plants while maintaining a small footprint. Planted in a row, Trautman will serve as a screen of unusual beauty because of its unique colour and texture. Will thrive in full sun and well-drained soil. Juniperus h. 'Gold Strike' Low, spreading mass of golden yellow foliage is great for brightening up border edges or filling in spaces near pavement. This is a slow grower but can be pruned freely to maintain the desired size. Foliage takes on a soft orange tint in the fall.	Low Compact	15cm	1.2m	3	49.00 1 Gallon 85.00 3 Gallon	New
Juniperus h. 'Limeglow' Limeglow Juniper. Not your typical juniper! Limeglow displays feathery foliage in electric chartreuse, a colour that makes a striking contrast to other greens in the garden. Its spreading, vase form and juvenile foliage lend a cheery presence in almost any garden, including one with hot, dry conditions. The yellow sport from Youngstown is reported to hold its bright colour and to resist sunburn. Selected by Larry Hatch with North Carolina State University.	Spreading	60cm	1.2m	3	38.00 1 Gallon 79.99 3 Gallon	
Juniperus h. 'Pancake' Juniperus horizontalis Pancake has feathery, scale-like foliage which covers the ground as it grows flat as a pancake. Growing not more than about 4 high, the branches will root as they creep along the ground. Gray-blue in colour through the growing season, it takes on light purple hues in winter. Prefers full sun in dry, sandy soils and is drought tolerant when established. Stake to attain additional height for pleasing effect.	Low Compact	1.2cm	1.2m	3	\$39.00 1 Gallon

cushion form and beautiful bluish-green foliage.						
Juniperus squamata 'Blue Star' The name Blue Star is wonderfully descriptive of this immensely popular plant. As broad as high, the short branches form a star-like appearance.	Low Compact	50cm	60cm	4	54.00 3 Gallon	
Larix decidua 'Pendula' Luminous, fresh, lime-green foliage covers this weeping, mid-size tree in the Spring. In the Fall, there is a glow of yellow before the needles drop to reveal tawny twigs. With age, branching divides and spreads, giving the plant an almost animal-like character. Prefers a moist soil in the Summer.	Large Weeping	Variable	3m	4	198.00 3 Gallon 473.00 10 Gallon	
Larix decidua 'Varied Direction' This name could be an understatement! In fact, the vigorous, spreading habit of this Larix decidua Varied Directions produces robust twigs that propel the branches up and out, in that varied directions. Golden tan branches, covered with thick twigs, eventually arch down and cover the ground in a unique configuration for each plant. Bright green spring foliage changes to gold in autumn before needles fall. Selected by Dr. Sydney Waxman, University of Connecticut.	Weeping	Variable		2	385.00 20 Gallon 473.00 10 Gallon	New
Metasequoia glyptostroboides The exquisite Metasequoia glyptostroboides, a deciduous, slower-growing and hardier tree than its Sequoia cousin, develops a handsome, conical habit with horizontal branching and red-brown bark. Its feathery foliage is light green in spring and unusual peach bronze in fall. Once thought extinct, this plant was discovered in a hidden valley in China in 1945. This durable park-sized tree prefers moist soils and is virtually carefree.	Broad Upright	7.5m	4.5m	4	179.99 7 Gallon	
Microbiota Decussata A species from south-eastern Siberia. Juniper-like flat spreader. Good fast growing ground cover with green foliage turning bronze in Winter.	Spreading	30cm	1.5m	3	45.00 3 Gallon

found by Gary Lanham, this broom makes a very attractive mounding conifer for a small garden. We like the fine texture of the needles on multi-stemmed branches that make it so compact. Also, the buds on stems have a cinnamon color that sets the plant apart from other cultivars. The yearly growth is approximately 2.5cm, so you can expect this plant to be 37cm tall and 70cm wide in 10 years, and fills in all the way to the ground. I have seen old specimens of this cultivar 50 years of age, and they are spectacular!						
<p>Picea abies 'Limey' The Limey Norway Spruce. Formally thought to be a seedling selection of <i>Picea glauca</i>, the originator of this exciting plant has informed us that The Limey is truly of Norway Spruce origin. Fresh, new foliage emerges each spring from the buds of <i>Picea abies</i> The Limey with a bright lemon-lime colour. Short needles adorn open branching that will fill in with maturity. As the season progresses, the exposed topsides of the needles remain a pleasant yellow while the undersides and shaded interior foliage turn lime green creating a striking contrast. The Limey thrives in moist, well-drained soil.</p>	Broad Upright	4.5m	3.6m	3	285.00 6 Gallon	New
<p>Picea abies 'Mikulasovice' Mikulasovice Norway Spruce. The unique and very distinctive dwarf conifer, <i>Picea abies</i> Mikulasovice is covered with long, grass-green needles. Short, irregular, orange-tan branches develop into a nearly perfect pyramidal shape. The combination of unique branch styling, long needles, slow growth and excellent form make this a one-of-a-kind dwarf conifer. Perfect in the container garden, super hardy and full of character.</p>	Globe Shape	60cm	90cm	3	268.00 6 Gallon	New
<p>Picea abies 'Mucronata' A dark green, compact selection, the irregularly mounding <i>Picea abies</i> Mucronata produces thick, stiff shoots with large, brown buds. 'Fire Light Tidbit' This innovative new development is the tiniest, tidiest panicle hydrangea yet: it reaches just 1m tall and wide, yet it packs in tons of easy-care beauty into its small size. Big, lush panicles of white mophead flowers appear in early-mid summer, nearly obscuring the textured green foliage. As the summer progresses, they begin to develop bright pink and red tones, which keep it colorful right on up to the first frost, especially combined with its colourful autumn foliage, an unusual trait in panicle hydrangeas. Thick, sturdy stems help to create a neat, mounded plant that's fantastic in landscapes, flower gardens.</p>	Mounded	1m	1m	4	45.00 2 Gallon	New
<p>Hydrangea p. 'Fire Light' Upright panicles are packed with florets which transform from pure white in summer to rich pomegranate-pink in late summer to fall. Its thick, sturdy stems hold up the beautiful flowers so they are prominently displayed in the garden.</p>	Mounded	1.5m	1.5m	4	45.00 2 Gallon	
<p>Hydrangea p. 'Flare' One glance at the fiery red blooms of Flare, and there's no turning back. Just like the flame of a smoldering fire. Because its very compact and showy, plant 'Flare' along a walkway, in the middle of a border, or in a decorative patio container</p>	Mounded	90cm	90cm	3	45.00 2 Gallon	New

clusters of creamy white blooms that emerge celadon green and turn light blush pink, bright red, and burgundy as the season progresses. Foliage is comprised of ovate green leaves.						
<p>Hydrangea p. 'Limelight Prime' Blooms much earlier, creating a longer display. This is especially valuable in colder climates, where 'Limelight' might not bloom until late August. Bolder, brighter colour. As the green blooms age, they develop pink and red tones that are far more vivid and showy than conventional panicle hydrangeas. Stronger stems. Though strong stems is a crucially important factor in the panicle hydrangeas we select for Proven Winners ColorChoice Shrubs, you can count on Limelight Prime to hold its big blooms up all summer long.</p>	Mounded	1.8m	1.5m	4	45.00 2 Gallon	New

any landscape. Summer flowers open soft green and turn pink and burgundy in fall.						
Hydrangea p. 'Little Quick Fire' Early blooming, flowering about a month before other hydrangeas. White flowers transform to pink-red as summer progresses. This dwarf plant fits easily into any landscape, including container gardens.	Mounded	1m	1m	3	45.00 2 Gallon	
Hydrangea p. 'Moonrock' Known for their large flower heads, these shrubs and their abundant blooms bring a touch of charm and whimsy to any backyard or garden. This variety produces pointed flower clusters of creamy white blooms that emerge bright lime-green and turn light blush pink as the season progresses.	Mounded	1.8m	1.8m	3	45.00 2 Gallon	
Hydrangea p. 'Phantom' A remarkable panicle hydrangea with the largest flower heads of any of its species - up to 37cm long. The conical colour-changing blooms unfold midsummer as a creamy white, then graduate to a blushing, soft pink as the summer progresses. A heavy bloomer with sturdy-stemmed flowers that do not flop.	Mounded	1.8m	2.4m	4	34.00 2 Gallon 59.99 5 Gallon	
Hydrangea p. 'Pinky Winky' Pinky Winky Hydrangea. Remarkable, extra large blooms change from creamy shades of pink to deep rose as season progresses.	Mounded	1.5m	1m	4	45.00 2 Gallon	
Hydrangea p. 'Puffer Fish' Think of Puffer Fish panicle hydrangea (H. paniculata) as a larger, more puffed up Bobo, with fluffy white blooms that engulf the entire plant, nearly obscuring the foliage. The flowers open and mature to a pure white. As the blooms age, they turn lime green and, for a bit of surprise, a fresh sprig of white flowers emerges from the tip of the panicle. A tight, compact habit with stems strong enough to hold its blooms.	Mounded	1.5m	1.5m	3	56.00 3 Gallon	New

Veronicastrum virginicum Culver's Root can offer a strong upright accent to any perennial garden or prairie/savanna. It's an elegant unbranched plant, reaching heights of 1.5m with candelabra-like spikes of white flowers that open from the bottom up mid-summer. The small white flowers densely packed together can sometimes take on a purple hue; the contrast of these flowers against the dark green foliage is stunning.		1.5m	1m	3	17.99 1 Gallon
