

Cupressus macrocarpa 'Golden Pillar'

Dainty gold foliage that has an upright growth with a conical shape. Grows to around 2.5m tall. It is best in full sun to get the best golden colour from the leaves. In part shade the foliage is a yellowish green colour.

Grow as a specimen tree for smaller gardens or in rows for pathways fences etc. Responds well to pruning.

Prefers moist soil well draining position. Protect from hot drying winds. Tolerates coastal climates.
