

Tree factsheet

images at pages 3 and 4

***Picea orientalis* (Linnaeus) Link**

<i>habitat</i>	
natural distribution in N.W. Europe since	Caucasus, Turkey 1822, Germany
natural areas The Netherlands	not indigenous
geological landscape types The Netherlands (Hoek 1997)	coversand area, ice-pushed ridges
forested areas The Netherlands	sandy soils; former heath fields
area Netherlands	<1700 ha (2002, Probos)
% of forest trees in the Netherlands	<0,7 (2002, Probos)
soil type	sandy, loamy, clay
pH-KCl	4-6
soil fertility	medium to nutrient rich
light	highly shade tolerant
shade tolerance (0=no tolerance to 5=max. tolerance)	no data, probably comparable to <i>Picea abies</i>
drought tolerance (0=no tolerance to 5=max. tolerance)	no data, probably comparable to <i>Picea abies</i>
waterlogging tolerance (0=no tolerance to 5=max. tolerance)	no data, probably comparable to <i>Picea abies</i>
plant communities in the Netherlands	Vaccinio-Piceetea (klasse der naaldbossen): -Leucobryo-Pinetum – Kussentjesmos-Dennenbos
<i>management</i>	
status Europe	infrequent species in forests
status The Netherlands	infrequent exotic species in forests
application	timber tree
propagation	seed, cuttings
regeneration	planting; natural regeneration
optimal gap size for regeneration	1-2x tree length
first plantation Netherlands	
resprouting after cutting	no
growth rate (M.A.I. in $m^3\text{ha}^{-1}\text{j}^{-1}$)	medium; ...
diseases	<i>Heterobasidion annosum</i> , fungus on roots (Wortelzwam) <i>Rhizina undulata</i> , fungus on roots (Koffievuurjeszwam)
insects	
<i>wood</i>	
wood	European spruce (Vuren)
wood structures key characteristics of pores	Resin canals. Continous transition from earlywood to latewood
density heartwood (kg/m^3)	<i>P. abies</i> : (300)-460(-620) (12% moisture content)
elastic modulus (N/mm^2)	<i>P. abies</i> : 11.600-13.500
durability heartwood	fungus 4
heartwood colour	white
sapwood colour	white
contents	resin (hars)
products	construction timber, cladding, pulpwood for paper, packing-wood
<i>non-timber products</i>	
seeds	raw edible
resin	for turpentine
